

**EASY
BOOB TAPE**

No more bra needed!

We help women solve the problem of wearing uncomfortable bras and visible bra straps by using Easy Boob Tape. Easy Boob Tape is an elastic tape that serves as a bra replacement. With Easy Boob Tape, women can lift, shape and support their breasts the way they want, without all the disadvantages of a bra, such as visible straps, cutting straps and a sweaty bra underwire. As a result, breasts are shaped beautifully, an outfit looks perfect and women walk out the door feeling confident.

Why

(1/2)

EASY BOOB TAPE

- **Confident:** With the use of Easy Boob Tape, an outfit comes off much better, making women feel confident. We think this is incredibly important!

- **Quality:** Easy Boob Tape is developed by a team of medical professionals, which means the tape has perfect tape-to-tape adhesion and a hypoallergenic adhesive layer, so the tape does not irritate the skin.

- **Fashionable:** On the catwalks, we see a lot of bare shoulders, open backs and deep cleavages. When women do want support and shaping of their breasts, Easy Boob Tape is the perfect product to show off these clothing items beautifully. So the product is really fashionable and from this time.

- **Price:** Easy Boob Tape is in the mid-range in terms of price, while the quality belongs to the top class. This ensures a good price-quality ratio.

Why

(2/2)

EASY BOOB TAPE

- **Easy to use:** Due to the clear descriptions of the various tape techniques on our website, it is made as easy as possible for the consumer to apply the tape correctly.
- **Three colors:** We have three different colors of Easy Boob Tape: beige, brown and black. Beige is suitable for lighter skin types, brown is suitable for darker skin types and black is ideal for under black clothing and is suitable for every type of skin tone. Thus, there is something for everyone.
- **Nipple Covers:** We offer silicone nipple covers that can be placed over the nipple to protect them before Easy Boob Tape is applied. We like to provide the best comfort for women. Since nipples are often sensitive, extra protection is nice. It is not necessary, but we strongly recommend it.

Our products

Easy BoobTape - Beige

Easy Boob Tape - Brown

Easy Boob Tape - Black

Silicone Nipple Covers

- **Everyday activities**
- **Sports activities**

Reviews

EASY BOOB TAPE

"I wore the tape at a dinner party and got super many compliments from my girlfriends. I ordered the brown one, which matched my toned skin nicely. The tape stuck well and sat nicely all evening. In short, highly recommended!!!" (May '23 - bol.com)

"I have used different types of boob tape, but I really like this tape best. After all, I have sensitive skin and with this tape I didn't get any irritation" (May '23 - bol.com)

"I am a fan of this tape!!! I have cup D/E and the tape gave tremendous support when I was dancing. I used the boob tape so you didn't see bra straps on on my shoulders and back. This boob tape stuck well all evening and night and it did not hurt when I took it off in the evening. Truly an ideal outcome of having firm support but no visible bra straps!" (May '23 - bol. com)
